CAPABILITY STATEMENT

Civil construction, plant & labour hire and transport, delivered as one.

Bellequip is a family-owned business with bases strategically located across Central Queensland. Built on the foundations of Bell's Plant Hire, Bell's Water and Bell's Fencing, we have supported industry throughout the region since 2001, including for government and Tier 1 clients.

Our **full in-house project management and delivery team** is backed by a **large network of prequalified, proven and trusted local subcontractors and suppliers** who support our project works.

2001	**$30M+**	**90+**	**100+**
Supporting industry since	Single project value delivered as principal contractor	Major plant items in our own fleet	Years of combined management experience

PREQUALIFIED & ACCREDITED

TMR prequalified under the National Prequalification System (R3 Roadworks, B2 Bridgeworks, F25), with an integrated management system certified to ISO 9001, ISO 45001 and ISO 14001 and accredited under the Federal Safety Commissioner's WHS Accreditation Scheme.

WHAT WE DO

Three capabilities, one team.

Civil Construction

Major projects delivered as principal contractor and subcontractor for Defence, state and local government, and private developers.

- Roads, intersections & pavements
- Drainage, culverts & floodways
- Detailed & bulk earthworks, rock excavation
- Subdivisions & site development
- Rehabilitation & remediation

Plant & Labour Hire

Plant, operators and labour hire to support industry, from a single machine to fully self-managing work crews.

- Wet hire with operators
- Self-managing work crews
- Project management & engineering teams
- Supervisors, leading hands, operators & labour
- Workshop & mobile servicing

Transport

Heavy haulage, tilt tray, plant, machinery and bulk water transport, supporting our own projects and those of our clients.

- Heavy haulage
- Tilt tray transport
- Plant & machinery transport
- Bulk water cartage
- Tippers, side tippers & road trains

OUR PEOPLE

A full in-house team covering every stage of delivery: project managers and engineers, site supervisors and leading hands, safety, training and environmental specialists, surveyors, plant operators, trades and labourers.

OUR NETWORK

A large network of trusted local subcontractors and suppliers, from specialist trades and additional plant to ready-mix concrete and portable batch plants, precast supply, quarry materials, bitumen sealing, asphalt, consumables and mobile camps, keeping our project spend local.

TECHNICAL CAPABILITY

1 Project & construction management
Experienced leadership on government, Defence and private projects, with the right team for each task.

2 Design integration
Local, experienced design teams managed through our ISO-certified integrated management system.

3 Environmental compliance
Experienced in managing environmental investigations, applications, approvals and compliance across sensitive environments.

4 Structures & services
Bridges, culverts (RCBC, SLBC, RCP), end structures, retaining walls, concrete slabs & pavements, comms, electrical, water, gas, sewer & drainage services.

5 Pavements & stabilisation
Specialising in multi-layer pavements and stabilisation of pavements and subgrades with variable binder types, by in-house trained crews and proven suppliers.

6 Plant operations & machine guidance
Clearing, grubbing and mulching, bulk and detailed earthworks and transport operations, with our 90+ plant fleet including GPS/UTS machine control.

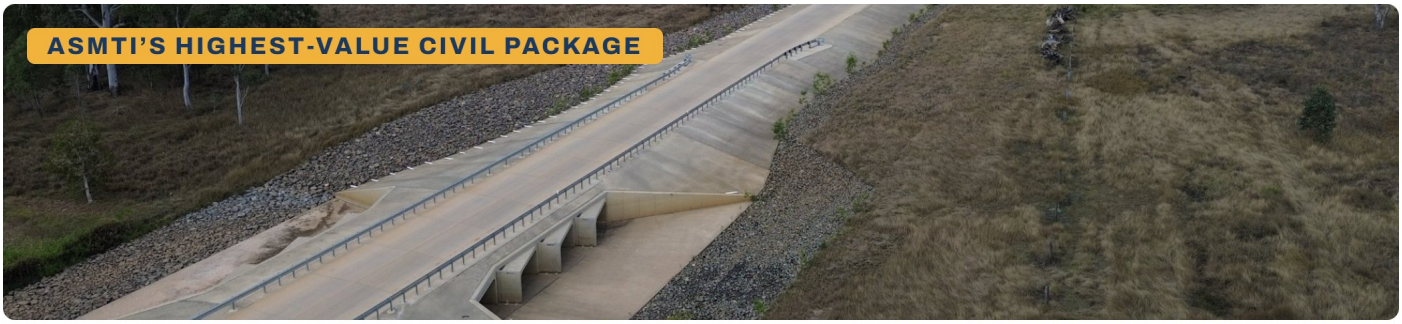

7 Traffic & public management
Managing traffic and the public on state and local roads, using in-house and external resources.

8 Prequalification & experience
TMR prequalified (R3, B2, F25), ISO certified and OFSC accredited, with a proven record of delivery.

FEATURED PROJECTS

Proven on Defence infrastructure.

On the Australia–Singapore Military Training Initiative (ASMTI) at Shoalwater Bay, Bellequip delivered five civil works packages for managing contractor Laing O'Rourke, each with full principal contractor obligations on an active defence range.

ASMTI Bulk Logistics Road & Node

Laing O'Rourke (Defence) · Shoalwater Bay

Construction of the Bulk Logistics Road and Node, the Stanage Bay Road intersection and a car park, plus dump remediation and road maintenance on Stoodleigh and Stanage Bay roads, delivered through bushfires, flooding and the COVID-19 pandemic, and completed on the contracted date.

15 km multi-layer road pavement construction	**11 culverts** up to 7-cell 3.6 m × 3 m link slab culverts	**2,100 m³** MRTS39 & MRTS40 concrete pavement
90,000 m³ imported fill	**80,000 m³** pavement material	**10,000 m³** rock excavation including blasting

ASMTI Western Wash Facility

Laing O'Rourke (Defence) · Shoalwater Bay

1.9 km of road, 25,000 m² of hardstand and 1.4 km of in-ground electrical, communications, water, compressed air, drainage, sewerage and trade waste services to a greenfield site, featuring bulk earthworks with cut and fill over 5 m and rock excavation to 4 m. Completed ahead of the contracted date.

ASMTI Precinct C Works

Laing O'Rourke (Defence) · Three work packages

Works across various sites over 80 km, including a sealed car park, batch plant pad, security checkpoint, clearing, grubbing and mulching, ground surface treatment, bulk earthworks, a major stormwater diversion channel, subterranean tunnel infrastructure, pavements, detailed earthworks and road maintenance.

CLIENT CONTRACT REVIEW HIGHLIGHTS

Laing O'Rourke end-of-contract reviews

BULK LOGISTICS ROAD

9 / 10 Quality management

- Well-resourced quality team
- Compliant despite major weather

WESTERN WASH

9 / 10 Quality management

- No outstanding defects
- Handover on programme

PRECINCT C WORKS

10 / 10 Quality management

- Defect-free works
- Relationships rated 9/10

SELECTED PROJECTS

Roads, drainage & community infrastructure.

Cracow Road Upgrade

Banana Shire Council · Cracow

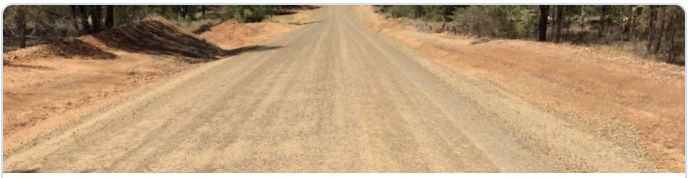

Flood-resilience and safety upgrades across 11 sections of a remote rural road, including eight concrete floodways, box culverts and stabilised pavements. Delivered on schedule.

Arduard Road Intersection Upgrade

RoadTek (TMR) · Blackwater

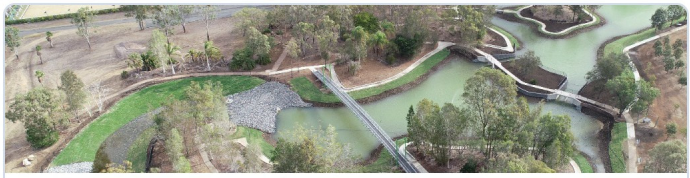

Intersection reconstruction and traffic signals, including a 72-hour rail shutdown with 60 Bellequip staff working day and night. Completed incident-free.

Shire Road Restoration, Package 7

Central Highlands Regional Council

Cyclone recovery across 140 km of formation grading and resheeting, placing over 80,000 tonnes of gravel. Finished ahead of schedule with no non-conformances.

Touch of Paradise Lagoons Restoration

Rockhampton Regional Council · Gracemere

Restoration of three lagoons beside a protected wetland under an Environmental Authority, including design and construct of a 43 m suspension bridge.

ALSO DELIVERED

School transport infrastructure upgrades · Rockhampton Regional Council
Gladstone–Benaraby Road widening · RoadTek (TMR)
Cedric Archer pump track · Rockhampton Regional Council
Yeppen Floodplain earthworks & plant · John Holland
Rattenbury Road subdivision · Truabode
Dorley Street intersection upgrade · TMR
Rocklands–Stanwell rail duplication · Leighton

WHAT OUR TRACK RECORD SAYS

ASMTI Western Wash Facility

> *The works delivered by Bellequip at the Western Wash were done so in a professional manner to a high quality, with all completion documentation provided in a timely manner.*

Laing O'Rourke

School Transport Infrastructure Upgrades

> *Bellequip Pty Ltd demonstrated a high level of experience and a professional manner while carrying out quality workmanship. I would recommend Bellequip Pty Ltd for similar work in the future.*

Rockhampton Regional Council

OUR MOTTO

As one, a legacy for quality.
